## Wireless and mobile access to Westlaw—anywhere, anytime!

Technology continues to change at a fast pace and West is here to help you keep up. That's why we created Westlaw Wireless, the mobile version of westlaw.com. From wherever you may be—at the courthouse, at a deposition, or on the road—you can use Westlaw Wireless to access Westlaw content from your mobile device.

### Accessing Westlaw Wireless

Access Westlaw Wireless from the wireless browser on your mobile device at [wireless.westlaw.com](http://wireless.westlaw.com) or [wl-w.com](http://wl-w.com). The cost for using Westlaw Wireless is the same as the cost for using westlaw.com under your subscription plan; no additional charges apply. Use your current Westlaw password to access Westlaw Wireless.

### Using Westlaw Wireless

Retrieve the full text of documents on Westlaw using Westlaw Wireless.

For assistance using Westlaw, call 1-800-WESTLAW (1-800-937-8529).

For free reference materials, visit [west.thomson.com/westlaw/guides](http://west.thomson.com/westlaw/guides).

#### Find a Document

Retrieve a specific document by entering the citation or party names.

#### Find&Print

Instantly print or e-mail up to five documents.

1. Type the text of the citation in the *Citation* text box.
2. Choose the result options from the *Deliver* drop-down list.
3. Select the destination (e.g., **E-Mail** or **Westlaw Printer**).
4. Click **Go**. A confirmation message is displayed.

#### Check a Citation in KeyCite®

Verify your research to make sure a case, statute, administrative decision, or regulation is good law by using the KeyCite citation research service.

1. Type the citation text in the *Citation* text box.
2. Choose the result you want to retrieve (e.g., full history of a document, negative history only, or a list of citing references).
3. Click **Go**. The KeyCite citations are displayed.

#### Search Westlaw

Access a database to retrieve documents on Westlaw using the search method you prefer.

1. Type the name of a database in the *Database* text box, or choose a database from the *Popular Databases* drop-down list.
2. Choose the type of query from the *Query* drop-down list (e.g., **Natural Language** or **Terms and Connectors**) and type the query text.
3. Click **Go**. The results of your query are displayed.
