

Remote Sharing of LiveNote Transcript Files

LiveNote Web™, LiveNote TS (for Citrix terminal server), and LiveNote Portal, in any combination, provide secure remote access to your transcript files.

Note: You cannot access a real-time deposition with LiveNote Web, TS, or Portal. To access a real-time deposition over the Internet, use LiveNote Stream™.

LiveNote Web

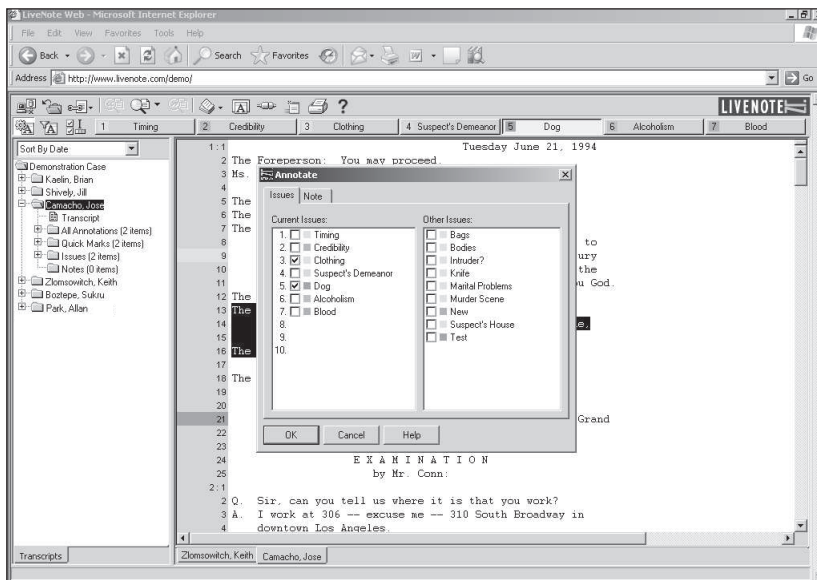

LiveNote Web provides web-based access to your organization's central LiveNote transcript database. You do not need LiveNote software to use LiveNote Web. Your administrator will assign you a Web site, username, password, and server address for access to your files.

With LiveNote Web, you can

- create Quick Marks, Issue Marks, annotations, and notes
- prioritize issues
- use the Full Text Query feature
- work with transcript groups
- generate reports for annotations, Quick Marks, notes, issues, and exhibits
- use the chat feature

To access LiveNote Web, complete these steps:

1. Go to the Web site assigned to you by your administrator.
2. Type your assigned username, password, and server address.
3. Click **OK**. The Open Case dialog box is displayed.
4. Select the case you want to use and click **OK** to display the list of transcripts for the case.
