People Finder Databases

People Finder databases on Westlaw allow you to search by name, address, telephone number, or Social Security number to retrieve records that will help you to locate an individual, or to verify a person's address, telephone number, or Social Security number. The sources of People Finder information include telephone directories, real property data, telephone company data, public demographic and census data, voter registration cards, and other public sources and proprietary sources compiled by third parties.

Database Identifier	Description
PEOPLE-FIND	Records in the People Finder Person Tracker database typically provide a person's name, current address and telephone number, previous address, and a Social Security number (with the last four digits blocked). Coverage includes all 50 states and the District of Columbia. Records from individual states and the District of Columbia are found in databases with the identifier PEOPLEFIND-XX, where XX is a state's two-letter postal abbreviation. <i>Full text searching with the Terms and Connectors search method is available in PEOPLE-FIND as an alternative to searching with a template.</i>
PEOPLE-NAME	Records in the People Finder Name Tracker database typically provide the subject's name, address, telephone number, length of residence, and a list of neighbors. People Finder Name Tracker records are available for all 50 states and the District of Columbia. Records from individual states are found in databases with the identifier PEOPLE-XX, where XX is a state's two-letter postal abbreviation. The subject's last name is a required search term in PEOPLE-NAME.
PEOPLE-SSN	Records in the People Finder Social Security Number Tracker database typically provide the name, birth date, and current and previous addresses associated with more than 175 million Social Security numbers. A complete Social Security number is a required search term in PEOPLE-SSN.
SSN-ALERT	Records in the People Finder Social Security Alert database typically provide the name and address associated with a Social Security number and a note alerting you that the Social Security number was matched to a valid name and address, was never issued by the Social Security Administration, may be associated with a deceased individual, or is not otherwise associated with a known address or name. A complete social security number is a required search term in SSN-ALERT.
PEOPLE-PHONE	Records in the People Finder Telephone Tracker database typically provide information associated with a residential telephone number, including the subject's name, address, telephone number, length of residence, and additional household members. Telephone Tracker records are available for all 50 states and the District of Columbia. A telephone number with area code is a required search term in PEOPLE-PHONE.
PEOPLE-ALERT	Records in the People Finder Address Alert database typically contain information associated with a person's name and address that indicates whether an address is deliverable or whether the telephone number or address is high risk (associated with a prison, etc.). The subject's last name and address are required search terms in PEOPLE-ALERT.
PEOPLE-ADDR	Records in the People Finder Name and Address Tracker database typically provide the subject's name, partial Social Security number, birth date, and current and previous addresses. First and last names and a complete address including zip code are required search terms in PEOPLE-ADDR.
