

## West LiveNote and West Case Notebook Terminal Service. On-Site/Off-Site Central Project Access.

**Available with:**

- West LiveNote
- West Case Notebook

### **Collaborate anytime, anywhere**

Litigation professionals need access to their work product whether they are in remote offices, hotel rooms or deposition centers.

Used in conjunction with West LiveNote™ and West Case Notebook™, Terminal Service provides components for your remote access strategy.

Your subscription includes applications to the central West LiveNote and West Case Notebook database – and the transcripts,

documents, pleadings, research, key facts, characters, issues and notes within it.

You can use Terminal Service to connect remote teams who are using different operating environments – giving every authorized user reliable anytime, anywhere access to the West LiveNote and West Case Notebook case. Administrative controls and role-based user permissions ensure only authorized parties access the case. Plus, sophisticated security protects the integrity of sensitive information.

*View a case via West LiveNote or West Case Notebook Terminal Service (Citrix users will see the same interface as non-Citrix users).*

### **Access the West LiveNote and West Case Notebook database through Citrix**

- Provides the full benefits of LiveNote or Case Notebook within a Citrix environment
- Simple administration and familiar interface
