

Business Citator on Westlaw Business

Now you have a more powerful way to engage a wealth of information for business due diligence.

New Business Citator facilitates a deeper understanding of clients, peers, suppliers, acquisition targets, and competitors. A unique text and graphical dashboard helps you quickly build a composite picture of a business – and you can start your company research from almost anywhere in the Westlaw Business platform.

In seconds, you can aggregate company information, directors and officers information, reported financials, recent SEC filings, international filings, loan finance agreements, mergers and acquisitions, and analyst reports from companies around the world.

New on Business Citator!

- **Material Change Indicators** – alert you to recent changes for a company, such as changes in leadership, bankruptcy filings, whether the company is a defendant in a class action, RICO, shareholder or antitrust suit
- **Litigation information** – includes U.S. dockets and cases, U.S. jury verdicts and settlements, U.S. bankruptcy dockets and summaries, and U.K. caselaw abstracts
- **Worldscope Company Reports** – financial statements on nearly 32,000 global public companies, with information including calculated ratios, extensive equities performance and market data, and business profiles
- **IP data** – U.S. trademarks and service marks, U.S. patents and applications, assignments, granted patents and litigation, Derwent Worldwide Patent Families and IP agreements
- **Business Citator Reports** – easily compile a business's profile including general corporate information; financials; subsidiary data; legal disputes; IP information; bankruptcy summaries; secretary of state filings; material agreements; and more
- **Enhanced company content** – added content includes material agreements; U.S. subsidiary information; secretary of state filings; material agreements; and additional news content including press releases

Business Citator will help you:

- Effectively use company information for legal disclosure filings, due diligence exercises, and capital markets transactions
- Utilize relevant content that you know is reliable
- Mitigate risk by identifying company "land mines"
- Present a unified business due diligence picture

Business Citator key features:

- Unified business search allows all companies to be searched – regardless of which center you're using on Westlaw Business
- Ability to limit results to companies with content in their originating center (e.g., limit to 34 Act filers)
- Users in all practice centers can easily toggle between different content sets for their retrieved business

Business Citator content highlights:

- Articles of incorporation and bylaws: U.S. public companies
- News: international, more than 150 sources
- Officers and directors profiles: global public companies (U.S., Canada, U.K.), current and previous
- Financial Services Authority (FSA) listings: all U.K. public companies
- SEDAR filings
- M&A agreements: U.S. public companies
- Corporate finance agreements: U.S. public companies

The Business Citator dashboard helps you target and aggregate information quickly.
