

# Graphical Bills

Graphical Bills helps you thoroughly research state and federal bills via an easy-to-read, single screen display of a bill's life cycle. It eliminates hours of drudgery for research, so you have more time to think strategically.

## A clear picture you can navigate easily

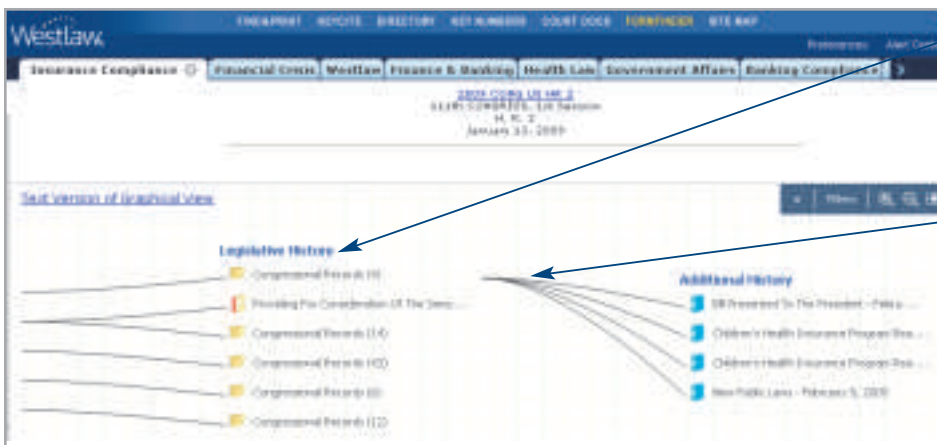

The Graphical Bills display shows prior and current versions of a bill, with surrounding activity such as hearings. Use it to quickly view potential changes in the law and locate relevant history. No longer do you have to search in multiple locations. Everything is on one screen, with links to information for detailed research.

Quickly find the most recent activity on a bill.

See the complete number of bill versions at a glance.

Simply link to any bill version.

Find all congressional records, committee and conference reports, testimony, presidential messages, governor's messages, fiscal notes, journals, and other documents associated with the bill and easily link to them.

New grab-and-scroll function allows you to find additional historical content fast.
